Swansea	1		Swansea	
Wirral	1		Wallasey	

The above table contains a list of Openreach's FTTP Fibre First Towns, Cities and Boroughs Build Programme, which is based on the current announced 3 million premises Fibre First Programme. It does not show FTTP deployment related to BDUK, new sites, and other small scale infill.

Openreach has exercised its best efforts to ensure that the contents of this table accurately reflect its relevant FTTP build plans at the time of publication. Details at an exchange level are shown only where Openreach expects that it will build in the greater majority of the relevant exchange. Openreach will keep this information updated on a quarterly rolling basis, including to reflect any possible changes to existing plans which may become necessary due to unforeseen operational obstacles (particularly where build is yet to commence).

*Programme Build Complete refers to the exchanges where build has been completed as part of the FTTP Fibre First Towns, Cities and Boroughs Build Programme, but does not mean that services will be available from this date.
